

IMMEDIATE NEWS RELEASE

April 2011

Insvet of Huesca Spain, a supplier of animal health products and equipment, signs exclusive distribution agreement with **AcuShot™ Inc.**, a Canadian developer of second generation needle-free technology with offices in Winnipeg, Canada.

Pedro Mayoral, Founder and Managing Director of Insvet, was quoted as saying; "Insvet is always looking for something new and innovative products. AcuShot is the perfect fit for our organization."

For over 27 years, Insvet has been actively promoting innovative livestock solutions for producers in Spain and Portugal marketing over 2000 products to a wide range of producers. "Providing AcuShot needle-free technology to our customers fits so well with Insvet's drive to provide producers with safe, time saving, and economical solutions for their farm operations" said Pedro Mayoral. www.insvet.com

Cal Funk, Director of Business Development for AcuShot Inc. stated; "It's been exciting to witness the advent of AcuShot needle-free technology and its entry into the global market place. So many livestock and poultry producers have commented on how glad they are to finally see a reliable, safe, and cost effective alternative to needles."

"It's a real tribute to the vision and commitment held by **Warren Toles, President** and principal owner of AcuShot and **Jules Poiron, Director of Product Development** and the creator of AcuShot needle-free technology" said Funk.
